## SUNNY VOHRA PROOF OF EVIDENCE

---

### **Introduction**

- 1.1 My name is Sunny Vohra and I am the Chairman of Twickenham Studios. I am an affiliated member of the Association of Certified and Chartered Accountants. I am a serial entrepreneur who started in hotels in 1971 in UK and Kenya, commercial and residential property and also in the automobile parts industry for the last 20 years. Our original family business was the assembly, wholesale and retail sales of bicycles and their spare parts, a business which was started in the early 1950's by my Grandfather in East Africa and is still running today as a going concern. We are one of the largest bicycle businesses in Africa.
- 1.2 I have been an avid fan of the film and television industry ever since I was a child and grew up watching movies on both the big and small screen. For me it was always a fascination as to how films and television shows were made.
- 1.3 I'm the kind of guy that if I had any free time I would go and sit in an empty cinema in the middle of the afternoon even if I was alone just so that I could watch a movie on the big screen and in absolute silence.

### **My involvement in the Studios**

- 1.4 I always wanted to be involved in the industry in some shape, form or other and it was like a dream come true when an opportunity arose in 2011 when I was asked by a film producer to meet him at Twickenham Film Studios to look at a slate of films that he wanted to make.
- 1.5 Not knowing much about how films were financed, I declined investment into the films but I told him that I was interested in the property and in the business of owning and running a film studio.
- 1.6 He then put me in touch with the owners' representative at the time and I started discussions about the future of these studios which were totally run down and in absolutely dire straits needing major investment. The CEO for the studio at the time told me what the studio needed and provided me with all the information including the financial reports for the last ten years.
- 1.7 These reports showed that the studios had been very successful and profitable. But as time went on, they turned into a loss-making operation due to lack of interest and investment.

- 1.8 The studio was started in 1913 by a gentleman named Dr Jurgen Krup. It has been through several ownership changes in the last 100 years and I bought it in 2012 from the administrators, after spending a year unsuccessfully negotiating with the then owners. Any creative business which has such an illustrious history and has the potential to be at the cutting edge of the UKs creative industries and has survived 100 years is worth saving.
- 1.9 During the year leading up to the purchase of the Studio I spent a lot of time walking around the Studio and the vicinity and the surrounding areas. It became very apparent that there was a lot of support to keep the studios running and there were many campaigns to stop the studio turning into just another residential development site.
- 1.10 After much negotiation I managed to secure a deal with the administrators in June 2012 and completed the purchase of the studio in August 2012.

#### **The re-emergence of the studios**

- 1.11 As the studio needed a lot of investment at the time and would continue to do so, I put together a group of like-minded family and friends to rescue the studio from being demolished and in so doing managed to secure its future and that of the personnel employed which in turn secured the jobs of hundreds of people working in production companies that used these facilities.
- 1.12 When I bought the studios there were about 20 people working there and on completion of works we had nearly 70 full time employees. At any given time when the studios are busy at 80% capacity, there could be anything between 500-700 people on site.
- 1.13 After the purchase of the studios we have invested nearly £9m in bringing the studios to the standard they are today. Currently all the theatres are equipped with state-of-the-art mixing desks, projection equipment and sound technology. But, as is the nature of this business, continued investment is always needed.
- 1.14 Today we have two of the best sound theatres in the country as proven by some of the films achieving nominations and awards at the Oscars, Baftas and other global events. Prime examples would be Bohemian Rhapsody, Senna and Baby Driver which were all mixed in our Theatre 1 by none other than Tim Cavagin our very own talented and Oscar, Bafta and Emmy award winning sound mixer.

1.15 Over a thousand movies and television programmes have had either production, post-production or everything done at the studios. The Filmography list of films and television productions done at the studios is attached as **Appendix 1**.

To cite a few examples of classics done at Twickenham are:

Zulu	The Italian Job	Cry Freedom
Chaplin	The Eagle has Landed	Gandhi
Cry Freedom	Help	Bladerunner
Straw Dogs	The Message	Iron Lady
Elizabeth	Layer Cake	Sleuth

Recent examples are:

Bohemian Rhapsody	Baby Driver	Florence Foster Jenkins
Hunter Killer	The Last Witness	Murder on the Orient Express
All the money in the World	Victoria and Abdul	Crooked House
Red Joan	War Horse	Goodbye Christopher Robin
The Monuments Men	The Martian	Hitman's Bodyguard
Finding your Feet	Marilyn	Maradona
The Hunger	The Last Full Measure	Legend

TV production and shows that have been done at Twickenham include, amongst others:

McMafia	Belgravia	Inside No.9
Horrible Histories	Teletubbies	Tipping Point

**Renowned directors that have worked at the studios include:**

Sir Ridley Scott	Stephen Frears	Sir Kenneth Branagh
Sir Richard Attenborough (who actually had his offices there for nearly 20 years)		
Asif Kapadia	Edgar Wright	Brian Helgeland
Todd Robinson	Carlo Nero	Shekar Kapoor

**Actors that have been on stage at Twickenham and in the theatres include:**

John Cleese	Hugh Grant	Meryl Streep
Nicole Kidman	Colin Firth	Pierce Brosnan
Sir Kenneth Branagh	Samuel L Jackson	Salma Hayek
James McEvoy	Eddie Redmayne	Vanessa Redgrave
Brad Pitt	Tom Cruise	Daniel Radcliffe

**Producers**

Peter Heslop	James Spring	Mark Damon
Tim Bogart	Adam Rolston	Guy Collins

**Post Production Supervisors**

Jeannetta Haley	Suzy Shearer	Miranda Jones
-----------------	--------------	---------------

**Sound Professionals**

James Mather	Ollie Tarney	Don Gibbs
Paul Massey	Tim Cavagin	Craig Irving

- 1.16 At **Appendix 2** are reference letters from people that are working or have worked at the Studios
- 1.17 Some of the biggest Hollywood studios namely Paramount, Universal, Fox have used our post-facilities and our talent.
- 1.18 We are currently in discussions with Arts Richmond to launch a Richmond Film Festival. This Festival was due to be started in April 2021 but has been delayed until April 2022 due to the pandemic that has decimated the world economy. We also actively participate and sponsor an Award with Richmond Awards Council at their Annual Awards dinner.
- 1.19 We are the only studio within the M25 that offers a script to screen service, whereby you can walk in with a script and walk out with a finished movie. We are also only 20 minutes from London Heathrow Airport, which makes us very convenient for International film makers from all over the world.
- 1.20 If these studios did not exist a lot of this production would go overseas. In addition, we would lose many projects that came in from Hollywood. Furthermore, much of our stage productions would be lost to Eastern European countries.
- 1.21 Most of the people who work at the Studios visit Crown Road for their grocery shopping, hairdressers, nail bars, pubs, butchers, green grocers, ironmongers, post office etc. Bearing this in mind if Twickenham Studios were forced to close or reduce operations, all the above traders would lose a large volume of trade as a consequence.
- 1.22 We need to expand as supply cannot meet demand and the fact that UK has some of the best talent in this industry.
- 1.23 If planning was granted to Arlington Works for the development of residential flats, there would be a major interruption to revenue which would put the business at risk. The main revenue and profits of the studio are generated by the sound centre which is literally adjacent to Arlington Works (see map attached at **Appendix 3**) that would become a building site for the best part of 3 years. The sound centre, the theatres and Stage One would become completely inoperable due to the noise and vibration levels that would be created on the site. In this industry due to the demanding nature of the clients and the investment they are making such problems are unacceptable.

- 1.24 Theatres 1, 2, 3 and 4 are all directly adjacent to the Arlington Works. These are labelled T1, T2, T3 and T4 on the map at **Appendix 3**. Also adjacent is picture post department. These facilities are used by clients who record voice-overs or make sound effects. Any noise or vibration has a direct impact and prevents the theatres being used. If the theatres could not be used, it would causes delays which productions cannot afforded because there are contractual obligations relating to the delivery of the final film to the cinema, or the final show to the Television Stations
- 1.25 As it is, when Arlington Works decommissioned and removed their oil recycling plant and equipment last year, the noise and vibration levels gave us no option but to stop working in the Sound Centre and it also affected Stage 1. This happened for about six weeks and we had to close intermittently on and off during this period. Incidentally they removed this equipment without proper permissions from the local council.
- 1.26 There has been very strong support for the studios to continue from the residents, who did not wish to see more flats and houses as it would create severe pressure on schools, parking and traffic in the area. If it got planning permission there would be a drastic effect on revenues because sound theatres would not be possible to run commercially and Stage 1 would also be severely impacted and this could put the business at risk.

#### **Adverse effect of car parking loss**

- 1.27 The studios rent some space from Arlington Works that is used for parking. If they took that space back, the studios would lose about 21 car park spaces, which are important to the operation of the Studios.

#### **History of offers**

- 1.28 Over the years myself or Studio management have had a few meetings and discussions with one of the owners of Arlington Works, namely Dawn Roads, and have offered to purchase the site and make it part of the studio. The site has been valued at £750k-1m and our current offer stands at £1.5m, which is far in excess of the valuation. This also exceeds the current use value, £1.385m, carried out by Arlington Works themselves. I even met Dawn and her brother to discuss this.
- 1.29 About 2 years ago Dawn Roads approached Sir Vince Cable to get in touch with me because she said that communication had broken down between her and the studios. I met with Sir Vince at his offices and confirmed that I had made her an offer, but she had not come back on it and that the offer is still open and on the table. In fact, communication had stopped from her side not

ours. Also, somewhere in the previous history it is a known fact that Dawn Roads father had always wanted to see Arlington Works become part of the studio.

1.30 Sir Vince then wrote her a letter with a copy to me saying that I was available to talk and that he would be willing to act as an 'honest broker', but we never heard anything further from her.

1.31 Personally I have recognised the studio needs further expansion and growth and to this end we have partnered up with two other industry people namely Piers Read and Jeremy Rainbird of Time and Space Studios to take the studios to the next level. They have brought on board General Projects and British Airways Staff Pension Fund to invest heavily and to take us through to the next decade and beyond.

### **Conclusion**

1.32 Twickenham Studios has a special place in the TV and film industry. If Arlington works are granted planning permission for housing, Twickenham Studios' revenue and proposition to clients would be severely affected with an obvious impact on employment and an adverse impact on the TV and film industry in London. We will have no option but to close the sound theatres and Stage 1 for the duration of the works. The local borough and the immediate vicinity would thus lose millions of pounds coming in from film production, one of the top 5 earners for the UK economy. This money would go to studios elsewhere and possibly even abroad. There would be a major interruption to revenue which will put the entire business at risk.

1.33 Thank you for the time afforded me to speak and hopefully put my argument across to all concerned.

## **APPENDIX 2**

Soundbyte Studios Ltd  
The Sound Centre  
Twickenham Studios,  
The Barons  
TW1 2AW

December 2020

To Whom it May Concern,

I am a Supervising Sound Editor based at Twickenham Studios. I have worked on many Hollywood productions over the past 27 years for Disney, Paramount, Fox and more including recent films: Maleficent: Mistress of Evil, Top Gun; Maverick, Mission Impossible; Fallout, Murder on the Orient Express and The One and Only Ivan.

My choice to be based at Twickenham Studios is quite simply that they are one of the most important production and post production facilities operating in the UK, with undoubtedly the best mixing studios in the country.

With Netflix and Disney commandeering the only other significant sound stages at Shepperton and Pinewood and the increase in film production being posted here in London there is more call for studio time than ever before. Consequently there have been times when I have not been able to bring work to the Twickenham facilities, due to it being at capacity.

Therefore I would be wholly supportive of any opportunity for the site to expand and create more production and post production facilities.

Yours sincerely,

A handwritten signature in black ink, appearing to read "J Mather", written in a cursive style.

James Mather  
Supervising Sound Editor  
Soundbyte Studios Ltd

22<sup>nd</sup> December 2020

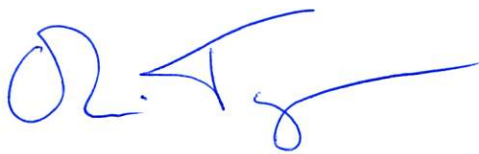

To Whom It May Concern,

I am a Supervising Sound Editor who has worked on a number of productions at Twickenham Studios over many years, including, amongst others: *1917*, *The Martian* and *Jason Bourne*.

Twickenham Studios is one of the most important production and post production facilities operating in the UK. My audio post production company, *Apple J Sound*, has been based there for the majority of the last 10 years, and I will be working there on two films between December 2020 and February 2021, one of which is for a major Hollywood Studio. It is somewhere I always look to first when planning my next production because of the high quality of the facilities, coupled with the fantastic attitude and creative talent of the staff.

The last few years have seen the UK film industry busier than at any other time in the 25 years I've been working in it, and I hope to see the UK film industry continue to grow to keep up with demand. Frustratingly there have been occasions in the recent past when I have not been able to bring work to Twickenham Studios due to it being at capacity, so if there was an opportunity for the site to expand and create more production and post production facilities I would be wholly supportive.

Yours sincerely,

Oliver Tarney  
Supervising Sound Editor  
Apple J Sound Ltd

22<sup>nd</sup> December 2020

**To Whom it May Concern**

I am a Post Production Supervisor who has worked on a number of feature films at Twickenham Studios over the last 25 years, including: *Bohemian Rhapsody*, *Baby Driver*, *World War Z* and *Amy*.

Twickenham Studios is one of the most important production and post production facilities operating in the UK, I have just finished working at there on my most recent film. It is the facility I always look to first when planning my next production because it has the best sounding mix theatre and some of the finest creatives working in the UK today.

Due to it's reputation for excellence, there have been occasions in the recent past when I have not been able to bring work to the Studios due to it being at capacity so if there was an opportunity for the site to expand and create more production / post production facilities, I would be wholly supportive.

Yours faithfully

**Miranda Jones**  
*Post Production Supervisor*
